

Carpenters' Chisels

Carpenters' Chisels

For more than 150 years - the family owned company, KIRSCHEN has produced high quality woodworking tools.

All KIRSCHEN chisels are handforged from special high carbon steel to a hardness of 61 Rockwell. These blades are then polished for easy sharpening and honing of the cutting edges.

All KIRSCHEN chisels are held by real hornbeam or highly resistant plastic handles for sturdy and comfortable usage.

1001

FIRMER CHISEL

- Bevelled edges
- Flat hornbeam handle - steel ferrule
- Polished blade
- Hardened to 61 HRC

1351

SWAN NECK MORTISE CHISEL

- Flat hornbeam handle with leather disc & steel ferrules
- Polished blade
- Hardened to 61 HRC

NOTE:
The swan neck mortise chisel is designed to remove waste from deep blind mortises. The blade has an upturned cutting edge to lever out wood shavings. This tool is excellent for cutting deep door mortise locks.

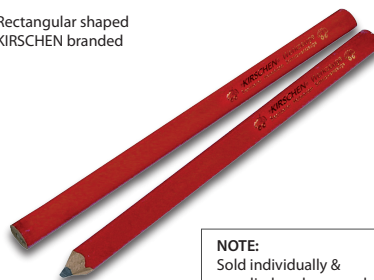

cat.-no.	chisel width (mm)	handle length (mm)
1351-06	6	120
1351-10	10	120
1351-12	12	125

9599

CARPENTERS' PENCIL

- Rectangular shaped
- KIRSCHEN branded

NOTE:
Sold individually & supplied unsharpened.

cat.-no.	length (mm)
9599	240

1051

S-FORM CHISEL

- Bevelled edges
- Flat hornbeam handle - steel ferrule
- Polished blade
- Hardened to 61 HRC

NOTE:
The S-Form chisel is designed to reach awkward places and is especially useful for cleaning out joints.

cat.-no.	chisel width (mm)	handle length (mm)
1051-10	10	120
1051-16	16	125
1051-20	20	130

1056

SKEW CHISELS - PAIR

- Flat hornbeam handle - steel ferrule
- Left and right skew
- Polished blade
- Hardened to 61 HRC
- Sold as set of two chisels

NOTE:
Skew chisels are used primarily for smoothing surfaces (both straight and convex), but can also be used for trimming end grain and making cuts. Box joint corners with box or finger and dovetail joints will respond well.

Set of 2:
Both left & right skew

cat.-no.	chisel width (mm)	handle length (mm)
1056-12	12	125
1056-20	20	130
1056-26	26	130

1720

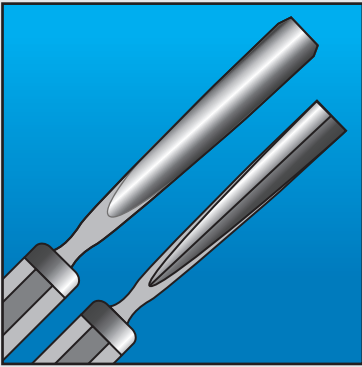

PLUGGING CHISEL

- Notched face

NOTE:
Used for mortising out the leaves for the installation of concealed hinges.

cat.-no.	thickness (mm)
1720-01.5	1.5
1720-02	2

Carving Tools

Carving Chisels

Carving Tools are available in 4 main styles:

Carving Chisels - Featuring a rectangular cross-section, these chisels can have either a square, or a skewed cutting edge.

Carving Gouge - Featuring a curved cross-section and out-canneled blade, gouges are used to smoothly remove large portions of wood.

"V" Tool - The V tool has a V shaped cutting edge, and is used primarily for outlining and fine cuts.

Carving Knife - A specialised knife, usually with a strong, short blade.

Specialty Tools

Specialty Woodworking Tools

The KIRSCHEN Specialty Woodworking Tools include a range of tools to complement the KIRSCHEN chisel ranges.

This range consists of:

- Tools for rough shaping of timber; drawknives and adzes
- High quality saws
- Cabinet scrapers for finishing timber
- Products to keep your KIRSCHEN tools sharp and ready to use, including oilstones, sharpening stones, stropps and grinding tools

1109-DB

2 CUT CHISEL

- 26 mm front cutting edge
- 90 mm side cutting edge
- Flat 2-component handle - for comfort
- Polished blade
- Hardened to 59-61 HRC

NOTE:
The 2-Cut is useful for:

- Mortising
- Cutting
- Scraping
- Peeling
- Notching
- Slitting
- Marking

cat.-no.	blade length (mm)
1109-DB	26 x 90

4000

DRAW KNIFE

- Straight edged blade
- 2 wooden handles

cat.-no.	length (mm)
4000-225	225
4000-250	250
4000-300	300

4017

INSHAVE

- Deeply curved blade
- Designed for carving hollows such as in seats or bowls
- 2 turned wooden handles

cat.-no.	length (mm)
4017	170

4002

DRAW KNIFE

- Curved edged blade
- 2 wooden handles

cat.-no.	length (mm)
4002-140	140
4002-200	200
4002-225	225
4002-250	250
4002-300	300

4018

SCORP

- Tightly curved blade
- Designed for carving hollows such as in seats or bowls
- 1 turned wooden handle

cat.-no.	length (mm)
4018	170

6100

CARPENTERS' ADZE HEAD

- Flat edged blade
- Designed for making flat or straight cuts and roughly shaping timber

cat.-no.	width (mm)	weight (g)
6100	85	1000

6110

MORTISE AXE

- Designed for use in projects requiring large mortise joints, such as large floor and roof beams.
- Provides a longer reach than a standard mortise chisel

cat.-no.	length (mm)
6110	450

3802

CABINET SCRAPER

- Goose neck
- Designed for work on curved projects

cat.-no.	thickness (mm)
3802	0.8

6101

CARPENTERS' ADZE HEAD

- Hollow edged blade
- Designed for making round and curved cuts, and roughly hollowing timber

cat.-no.	width (mm)	weight (g)
6101	70	1000

3803

FLOOR SCRAPER

- Wooden handle for ease of use
- Slight curvature of scraping edge

cat.-no.	length (mm)
3803	120

3800

CABINET SCRAPER

- Square edged blade
- High quality steel

cat.-no.	thickness (mm)	width (mm)
3800-0.6	0.6	150 x 60
3800-0.8	0.8	150 x 60
3800-1.0	1	150 x 60

6150

ASH HANDLE

- Suitable for use with KIRSCHEN adze heads (6100 & 6101)

cat.-no.	length (mm)
6150	800

3915

SCRAPER FILE

- Round shaped file
- Wooden handle

cat.-no.	length (mm)
3915	120

3801

CABINET SCRAPER

- Concave and convex curved blades
- Designed for work on curved areas

cat.-no.	thickness (mm)
3801	0.8

4150

DOVETAIL SAW

- Brass back
- Wooden handle
- Straight

Hang Display

cat.-no.	blade length (mm)	overall length (mm)
4150	250	360

4200

VENEER SAW

- Toothed on both sides
- One set of teeth is sharpened for cutting across the grain
- One set of teeth is sharpened for cutting along the grain
- Offset wooden handle

Hang Display

cat.-no.	blade length (mm)	overall length (mm)
4200	75	195

5825

JOINERS' AWL

- Round awl
- Wooden handle

Hang Display

3617

COMBINED SHARPENING AND HONING UNIT

- 250W motor runs at 1400 rpm
- Comes with 4 sharpening/honing discs
- Yellow and green discs are designed for hollow and straight sharpening respectively
- Red and blue discs are designed for hollow and straight fine honing respectively
- Includes 4 fully adjustable tool rests

sharpening discs	colour	purpose	blade shape
	yellow	sharpening	straight
	green	sharpening	hollow (gouge)
	blue	honing	straight
	red	honing	hollow (gouge)

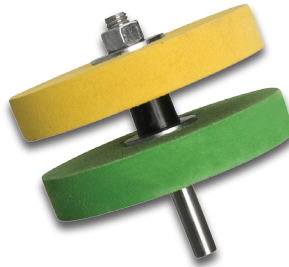

cat.-no.	description
3617	combined sharpening & honing unit

3610

SHARPENING DISCS

- Optimum speed at 1400 rpm
- Each disc provides up to 4000 sharpening operations
- 12mm diameter spindle

cat.-no.	description
3610	sharpening wheels - 2 piece set

3615

1KG SHARPENING PASTE - GREEN (REGULAR)

- 2500 grain sharpening paste
- Sharpening paste lasts for approx. 2000 sharpening operations
- For all regular sharpening operations

cat.-no.	description
3615	sharpening paste - green

3612

SHARPENING DISC - HOLLOW

- Suitable for the sharpening of cutting tools with rounded cutting edges e.g. gouges

cat.-no.	disc Ø (mm)	description
3612	120	sharpening disc - hollow

3618

FINE HONING DISC - HOLLOW

- Suitable for fine honing and final sharpening of cutting tools with rounded cutting edges e.g. gouges

cat.-no.	disc Ø (mm)	description
3618	120	fine honing disc - hollow

3616

1KG HONING PASTE - BLUE (FINE)

- 3500 grain honing paste
- Honing paste lasts for approx. 2000 sharpening and honing operations
- For extra fine sharpening and polishing

cat.-no.	description
3616	honng paste - blue

3611

SHARPENING DISC - STRAIGHT

- Suitable for the sharpening of cutting tools with straight cutting edges e.g. chisels

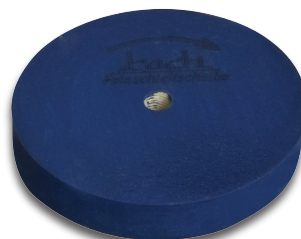

cat.-no.	disc Ø (mm)	description
3611	120	sharpening disc - straight

3619

FINE HONING DISC - STRAIGHT

- Suitable for fine honing and final sharpening of cutting tools with straight cutting edges e.g. chisels

cat.-no.	disc Ø (mm)	description
3619	120	fine honing disc - straight

3614

POLISHING BRUSH

- Polishing brush for wood carvings
- 12mm diameter spindle

cat.-no.	brush Ø (mm)	description
3614	150	polishing brush
