Industrial Rechargeable Cells & Assembled / OEM Battery Requirements

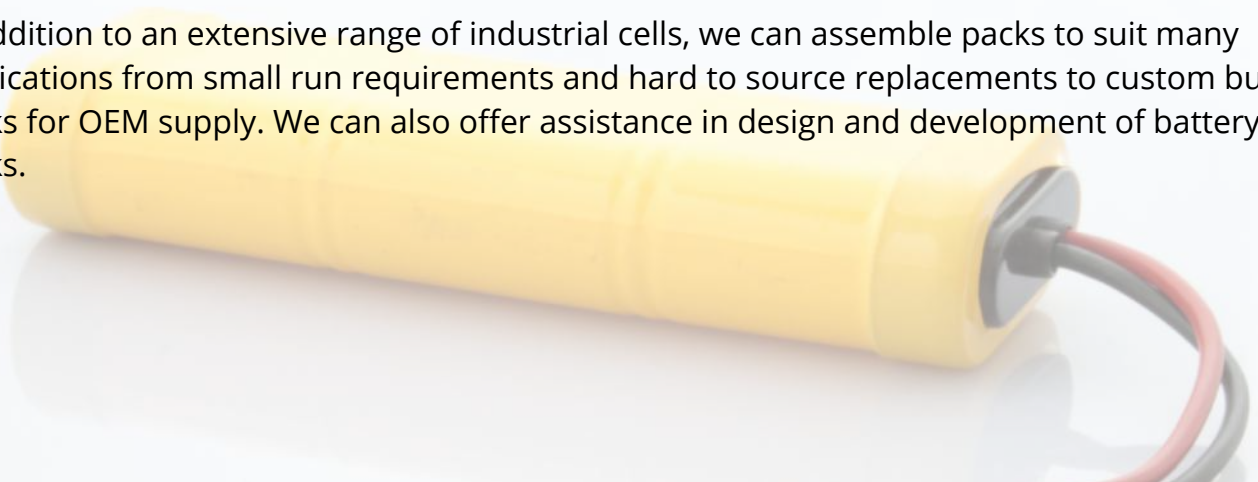

Industrial Rechargeable Cells & Assembled Batteries

- High capacity and high quality GP cells
- Perfectly suited to assembly jobs or OEM production
- We refurbish "hard to get packs" for industrial application

Specialist suppliers to specialist industries and market segments

In addition to an extensive range of industrial cells, we can assemble packs to suit many applications from small run requirements and hard to source replacements to custom built packs for OEM supply. We can also offer assistance in design and development of battery packs.

Merchandising Stands

- Various sizes available
- Single branded attractive merchandise stands
- Battery range and stands tailored to meet all segments
- Great margins
